Ohio Faculty Council

Medical College of Ohio Faculty Senate Resolution Concerning Ohio Senate Bill 24

Whereas, Senate Bill 24 known as an "academic bill of rights" has been introduced into Ohio General Assembly; and
Whereas Senate Bill 24 would impose serious and unnecessary restrictions on teaching and evaluation methods used by college and university faculty; and
Whereas the university or college has traditionally been the hallmark of academic freedom; and
Whereas the nature of higher education is free expression of a variety of ideas; and
Whereas it is the responsibility of university and college faculty to determine their own curricula and teaching methods; and
Whereas student and faculty rights are already protected by institutional policy
Be it resolved that: The Faculty Senate at the Medical College of Ohio opposes Senate Bill 24 and reaffirms its commitment to the principles of academic freedom and intellectual diversity.
